

We are writing to strongly urge you not to change LPFM stations in a way that may adversely affect family friendly programming such as, KLOVE. We have recently moved from Memphis, TN, where we listened the KLOVE daily and were encouraged by their positive message. In fact, we decided to support them through a monthly commitment which we have continued even though we do not live in a local KLOVE broadcast area any longer. We know what an important impact it had on our family and want to enable others to hear their message. If forced off the air, it will have a devastating effect on the community because positive, uplifting, family messages will not be heard. Thank you for your consideration of this highly important matter.
